

April 27, 2021

Dear Middle/High School Students and Parents,

We are able to return to In-Person instruction at the Middle School and High School for Wednesday, April 28. Several teaching staff are able to return, and we are able to cover other classrooms that may need substitutes.

Any students that are currently quarantined will need to show proof of a negative test, if you have not already done so, to be off of quarantine prior to May 1. We appreciate your cooperation and understanding of the quarantine orders we have to follow per public health orders.

Springtime is full of great events for students (Prom, Athletics, Graduation, Awards Ceremonies, and 8th Grade Recognition, etc). To assist us in not running into another closure, we ask that you pay extra attention to self screening students, and keeping them home if they show any symptoms of COVID-19. We recognized the inconvenience this precaution that self-screening may create, yet we do not desire to inconvenience our entire building through year's end due to further contact tracing matters.

Your assistance is **greatly appreciated** in helping us end the school year in person with in-person classroom instruction and the aforementioned positive events for our students and your children.

All bus route schedules will return to normal pick-up and drop-off times.

Sincerely,

Brandon Jerue, High School Principal
